

14<sup>th</sup> Edition of International Conference on  
**Nanomedicine and  
Advanced Drug Delivery**

---

May 11-12, 2020  
Vienna, Austria

**Theme:**

Innovative advancements in the field of Nanomedicine and Drug Delivery

## Invitation

Welcome to Vienna, the city of music and dreams, and experience the art of Nano Drug Delivery illuminated as never before. EuroSciCon is proud to host the 14<sup>th</sup> Edition of International Conference on Nanomedicine and Advanced Drug Delivery during, May 11-12, 2020 in Vienna, Austria. Theme of the conference focuses on the innovative advancements in the field of Nanomedicine and Drug Delivery. Nano drug delivery is considered as, a blend of both Nano Technology and practicality which conveys a purpose of Drug delivery. The most publicized use of nanotechnology in drug delivery under development is the use of nanoparticles to deliver drugs to cancer cells. Particles are engineered so that they are attracted to diseased cells, which allows direct treatment of those cells. This technique reduces damage to healthy cells in the body. However, that's just the tip of the drug delivery iceberg. There are a number of other ways that nanotechnology can make the delivery of drugs more efficient and potentially less unpleasant for the patient. Some techniques are only imagined, while others are at various stages of testing, or actually being used today. The Nano Drug Delivery 2020 introduces many of these techniques..

## A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

May 11-12, 2020  
Vienna, Austria

## Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

### **Our International Open Access Journals:**

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

### **Our International Scientific Conferences:**

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

### **Other salient features comprehend:**

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref  
Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

With over 25000+ analytical chemists and drug analysts accessing the website, Nano Drug Delivery 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fuelling better outreach of the work and profile.

### **Nano Drug Delivery 2020 Salient Features:**

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

*Congregate with most senior executives*

*Nurture connexions*

*Agenda format which incorporates ample Q&A time*

*Partake in our revamped exhibitor expo sessions*

*Meet and listen to the relevant clients*

*Unprecedented growth creating an unparalleled market place*

May 11-12, 2020  
Vienna, Austria

### **How's EuroSciCon different?**

*Exercises your creative instincts with the live knowledge experience*

*It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries*

*Over 25 Million+ Visitors and 20000+ Unique Visitors per conference*

*World's leading industries and companies attend*

*Career guidance for early career researchers and students*

*Provides insights you need to take your research to the next level*

*A huge conclave of high tech and science priests*

## Who'd be attending?

Nano Drug Delivery 2020, is going to be held on May 11-12, 2020 in Vienna, Austria. Theme of the conference focuses on Innovative advancements in the field of Nanomedicine and Drug Delivery. Nano Drug Delivery 2020 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. The primary goal of "Nano Drug Delivery 2020" is to bring in researchers, scholars, engineers, practitioners, scientists, and students from all around the world along with leading industry people to attend and/or present research activities which will lead to encourage positive relation between Academics and Industry. The conference will provide the delegates to exchange ideas and knowledge face to face and establish research and/or business relations, with a collective goal to create a better future." Nano Drug Delivery 2020" will be promoting research and new ideas relating Design of Nano drugs, new and advanced Drug Delivery Systems and Drug Delivery Equipments And Machinery. This conference will have the participation of renowned keynote speakers in these areas, along with oral presentations and posters. sessions.

### Tracks :

- Cancer And Nanotechnology
- Nanomedicine
- Design Of Nanodrugs
- Drug Targeting And Design
- Novel Drug Delivery Systems
- Routes Of Drug Administration
- Pharmaceutical Nanotechnology
- Nanomaterials For Drug Delivery
- Nanotechnology And Biomedical Applications
- Personalized Nanomedicine
- Drug Delivery Research
- Drug Delivery Equipments And Machinery
- Smart Drug Delivery Technology
- Regenerative Medicine And Tissue Engineering
- Regulatory Aspects Towards Approval Of Nanomedicine
- Vaccine Design And Delivery Technology
- Drug Delivery And Device Development
- Recent Advances In Drug Delivery
- Major Challenges In Drug Delivery
- Drug Delivery Companies And Markets
- Nano Pharmaceutical Industry and Market

### **Academic Keytopics:**

- Biomedical Engineering
- Business Opportunities in Drug Delivery
- Drug Delivery Technology
- Nano Pharmaceuticals
- Nanomedicine and Nanotechnology
- Novel Bio therapeutics and Drug Delivery Systems
- Nucleic Acid Based Drug Delivery
- Peptide and Protein Drug Delivery
- Smart Drug Delivery Systems
- Synthesis of Nanoparticles for Drug Delivery

### **Business Keytopics:**

- Drug Delivery Market in Africa
- Drug Delivery Market in Brazil
- Drug Delivery Market in Canada
- Nano Drug Delivery Market in Australia
- Nano Drug Delivery Market in Germany
- Nanomedicine Market in Asia
- Nanomedicine Market in Dubai
- Nanopharmaceutics Market in UK

May 11-12, 2020  
Vienna, Austria

## See your work **PUBLISHED** in one of our related journals

- American Journal of Advanced Drug Delivery
- American Journal of Drug Delivery and Therapeutics
- International Journal of applied science research and review

May 11-12, 2020  
Vienna, Austria

## About Destination Vienna

Vienna is the largest city and the federal capital of Austria. It is one of nine states of Austria. It has a population of about 1.9 million which comprises of nearly one third of the country's population. It is the 7th-largest city in terms of population within city limits in the European Union. The city is situated in the eastern part of Austria and is adjacent to the borders of Slovakia, Czechia, and Hungary. Next to Berlin, it is the second largest German-speaking city. In 2001, the Vienna city centre was nominated a UNESCO World Heritage Site. Apart from being considered as the "City of Music" due to its musical legacy, it is also known as "The City of Dreams" because it was home to the world's first psychoanalyst – Sigmund Freud. The historical core of Vienna is rich in architectural outfits, comprising Baroque castles and gardens, and the Ringstrabe which is lined with grand buildings, monuments and parks.

Tourism is an important economic activity in Vienna which attracts over 6.8 million tourists annually. The Vienna international trade fair, which takes place twice a year in the months of March and September, is of special importance to the economy of Austria. The fair fascinates exhibitors from both European and overseas countries and is joined by several hundred thousand visitors. Vienna produces a major portion i.e., more than half of Austria's capital goods and nearly half of its consumer goods. Top industries include the manufacture of machinery (primarily electrical machinery and transportation equipment), electrical products, chemicals, and metal products. Other areas such as oil processing, cement works and brickmaking are also important. The service productions in Vienna, including banking, account for half of Austria's total employment. Hundreds of Americans, Germans, Japanese, and British firms, as well as many firms from eastern European countries, use Vienna as a base for trading processes. About 10 percent of Austria's exports go to the eastern European countries. Vienna city is the least spoiled of the great old western European capitals. It evaded many of the problems—financial crises, social unrest, urban decay—that afflict other European cities.

## Venue and Accommodation

### Venue:

Vienna, Austria
