About conference

13th International Smart materials conference Congress heartily welcomes the worldwide audience to participate within the conference that goes to be control in February 19-20,2020 at Paris,France Microfluidic devices and systems have created an amazing interest in several application fields, as well as life sciences, purpose of care nosology, and environmental applications. The conference aims to assemble leading educational scientists, analysers and analysis students to exchange and share their experiences and research results on all aspects of Microfluidics and its development.

Sessions:

- Nanotechnology
- Materials in Health-care
- Market Demand & Future
- Polymer Science & Engineering
- Emerging Smart Materials
- Materials Engineering & Science

Honourable Speakers

Aharon Gedanken
Israel

Irmak Kayis
Turkey

Soner CUBUK
Turkey

Soshu Kirihara
Japan

Zahra Sheykhifard
Netherlands

Dongling Ma
Canada

Who should attend?

- Companies dealing in Smart Materials
- Venture capitalists and investors interested in this market
- Research organizations

Why to attend?

- To Meet Experts
- Learning In a New Space
- New Tips & Tactics
- Certification
- Global Networking

Benefits of attending Smart Materials Conferences:

- Getting recognition some of the most reputed names in the scientific community.
- Hearing about the latest research from the conference topic.
- An opportunity to share your views and interact with researchers from around the world.
- A chance for budding scientists to meet their academic heroes.
- Engaging in high-level debates to refine your ideas.
- Opportunity to get a best young scientist award

Tourist Attractions

Paris is one of the state's – and the world's – most popular vacation spots. Though destinations often are said to offer something for everyone, the Paris area does indeed offer multiple enticements for everyone:
