## B2B Meetings

# Invitation

Dear Attendees,

We are glad to announce the **49<sup>th</sup> World Congress on Microbiology to be held in London, Uk** from **June 15-16, 2020** organized by Conference Series llc Ltd in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Microbiology 2020 brings together active researchers, doctors, critics, academicians, students, and industrialists to exchange ideas, communicate and discuss research findings on new advancements in technologies, imaging, diagnosis application and treatment in the field of microbiology. At Microbiology 2020, we have developed a cutting-edge program highlights prioritising the recent advancements, practices and increase in the therapeutic uses of microbiology. We have increased the networking opportunities, focused sessions, student-professor interactions, symposiums and workshops with special emphasis on panel discussions.

Best Regards,

Microbiology 2020

### Our International Open Access Journals

- **700+** Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+  Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

### Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

### Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

### Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

**Special Issues : All accepted abstracts will be**

published irrespective Conference Series llc Ltd Journals

Each abstract will be provided with digital Object Identifier by

## B2B Meetings

Microbiology 2020 Conference website attracts about 25000+ clinicians, surgeons, academicians, technicians and other online visitors who are working in this field of microbiology. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this, the abstracts and research profiles of our speakers and committee members are getting the global visibility which is an additional feature that you would be receiving in addition to the networking opportunities before, during and after the conference.

### Microbiology 2020 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

### How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

### Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about 49<sup>th</sup> World Congress on Microbiology present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

## B2B Meetings

### Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Microbiology
- Discuss and apply recent research findings related to Microbiology
- Reflect on the place of critical developments
- Research ethics & challenges in Microbiology

### Who should attend

Microbiologists, including but not limited to Bacteriologists, Virologists, Bio-Physicist, Bio-Chemist, Environmentalists, Mycologists, Infection controllers, Disease Control Organizations, Immunologists, Food & Dairy Microbiologists, Professors, Researchers, students and other Microbiology enthusiasts.

### About hosting organization

Conference Series llc Ltd is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI

### Major Sessions

- Bacteriology, Bacterial Pathogens and Associated Diseases
- Mycology, Fungal Pathogens and Associated Diseases
- Virology, Viral Pathogens and Associated Diseases
- Phycology, Nematology & Protozoology
- Medical Parasitology
- Antimicrobial Agents & Resistance
- Clinical Infections & Vaccines
- Clinical & Public Health Microbiology
- Applied & Environmental Science
- Microbial Cytology, Microbial Physiology & Recombination DNA

## About London

The name London may derive from the River Thames. London, the capital of England and the United Kingdom, is a 21st-century city with history stretching back to Roman times. At its centre stand the imposing Houses of Parliament, the iconic 'Big Ben' clock tower and Westminster Abbey, site of British monarch coronations. Across the Thames River, the London Eye observation wheel provides panoramic views of the South Bank cultural complex, and the entire city.

London has a diverse range of people and cultures, and more than 300 languages are spoken in the region. Its estimated mid-2016 municipal population (corresponding to Greater London) was 8,787,892, the largest of any city in the European Union, and accounting for 13.4% of the UK population. London's urban area is the second most populous in the EU, after Paris, with 9,787,426 inhabitants at the 2011 census. The city's metropolitan area is the most populous in the EU with 13,879,757 inhabitants, while the Greater London Authority states the population of the city-region (covering a large part of the south east) as 22.7 million. London was the world's most populous city.

A number of world-leading education institutions are based in London. In the 2015/16 QS World University Rankings, Imperial College London is ranked joint 2nd in the world, University College London (UCL) is ranked 5th, and King's College London (KCL) is ranked 16th. The London School of Economics has been described as the world's leading social science institution for both teaching and research. The London Business School is considered one of the world's leading business schools and in 2015 its MBA programme was ranked second best in the world by the Financial Times.
