About Conference

STD Prevention 2020 conducts systematic scientific meetings that address and discussions centre on Ending the HIV epidemic and reducing STI transmission and social sciences related to all STDs, including HIV infection. The goal of this Conference is to highlight the services healthcare settings can offer to provide optimal STD care.

STD Prevention 2020 is scheduled to take place in Las Vegas, USA during September 14 - 15, 2020.

STD Prevention 2020 focus to provide Awareness and knowledge on Sexually Transmitted Diseases. This emphasizes knowledge and exploration in the field of HIV/AIDS, STDs, STIs and other infectious diseases.

This is the best opportunity to reach the largest gathering of participants from the Vaccine Immunology community. World renowned speakers and the HIV Vaccine Development scientists Immunological and Biological Challenges are hallmarks of this conference.

About Herald Meetings

Herald Meetings is a budding conference organization that started originally as a Herald Scholarly Open Access, publishing house in the fields of Sciences, Engineering, Healthcare and many more. After several successful years in publishing and open access and many satisfied authors, clients and Ph.D. scholars, we expanded our activities towards International conferences, exhibitions, events and meetings, using the advantages that we have by specializing in all worlds, that of publishing and congress organization activities. zv solutions are always ingenious and unique.

Why to Attend?

- Experience the energy and excitement associated with the patient care
- Provide educational opportunities for those with interest towards Virology
- Identify strategies to account for drug combinations early in development
- Meet prospective partners and identify in-licensing and out-licensing opportunities
- Learn about overcoming resistance in targeted therapies
