

2019 International Conference on Graphene and Novel Nanomaterials (GNN 2019)

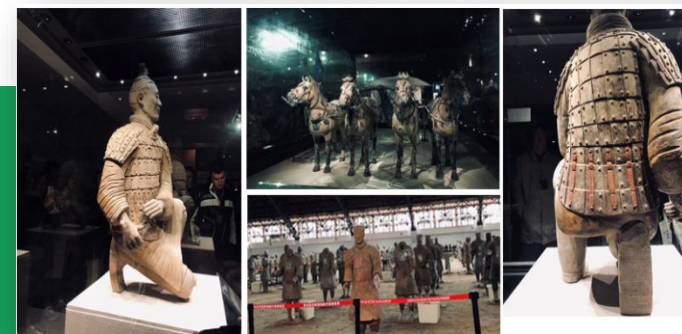

INVITATION

2nd International Conference on Graphene and Novel Nanomaterials (GNN 2020)

Xi'an, China | Nov. 1 - 4, 2020

Terracotta Warriors – the Eighth Wonder of the World

BACKGROUND

The isolation of graphene in 2004 from graphite gave “birth” to the modern field of two-dimensional materials and inspired work in many electronics applications. 2D materials are leading candidates for next generation nanomechanical devices.

Although tremendous effort has been made towards creating graphene-based applications, challenges still exist in achieving commercial graphene devices.

1st GNN Conference

129 Submissions	3 Keynote speeches
85 Attendees	15 Invited speeches
17 Countries	27 Oral presentations
10 Published papers	9 Poster presentations

AIMS

GNN conference aims at providing a platform for academia and industry to present robust research demonstrating the expanding frontiers in the fields, and opens doors for discussing the practical challenges and recommending better solutions for material research.

CONTACT

Conference Secretary: Ms. Yoko Ye

Tel./Wechat: +86-17740690637

E-mail: info@gnnconf.org

Website: www.gnnconf.org

ORGANIZER

NPU-NCP Joint International Research
Centre on Advanced Nanomaterials and
Defects Engineering

GENERAL CHAIR

Prof. Tingkai ZHAO

Northwestern Polytechnical University,
China

Director of NPU-NCP Joint International
Research Centre on Advanced Nano-
materials and Defects Engineering

CALL FOR PRESENTATIONS

Types	Allotted Time
Keynote Presentation	40 min.
Invited Presentation	20 min.
Oral Presentation	15 min.
Poster Presentation	1-2 hours

★ Join as Presenter

Please submit an abstract or a full paper via [Submission System](#) and inform us your prefer presentation type (Oral or Poster);

★ Join as Listener

Please write an e-mail to us via info@gnnconf.org.

After confirmation, related registration instructions would be sent to you to guide the registration process.

IMPORTANT DATES

June 1, 2020
Submission Deadline

Nov. 1, 2020
Conference Registration Deadline

PUBLICATIONS

1. Conference Proceedings

Accepted full papers will be published in proceedings that indexed by: Scopus, EI and Inspec, etc.

2. ISI Journals

Reviews on Advanced Materials Science (IF=1.828)
High Temperature Materials and Processes (IF=0.427)

GENERAL TOPICS

GRAPHENE

Carbon Nanotubes & Nanorods
Graphene-based Materials
Graphene Membranes
Graphene Oxide and Properties
Chemistry and Biology Studies of Graphene
Graphene Modification & Functionalization

.....

NOVEL NANOMATERIALS

Nanoparticles
Nanoelectronics
Nanobiotechnology
Nano Medicine
Nanotheranostics & Nano Bioelectronics
Synthesis, Characterization & Properties

.....

CONFERENCE PROGRAM

Nov. 1	Conference Registration
Nov. 2	Keynote Speech Poster Presentation
Nov. 3	Invited Speech Oral Presentation
Nov. 4	Field Visit to Terracotta Army

XI'AN

THE CRADLE OF CHINESE CIVILIZATION

Xi'an is the capital of 13 ancient dynasties in China, which could date back to 1200 years ago. Even before the lives of Christ, Mohammad, and Siddhartha.

Best known for its ancient historical ruins, museums, cultural relics, and archaeology, Xi'an draws visitors wanting a glimpse of the Middle Kingdom 's long and spectacular history.
