Plastic Surgery Conference Venue

About the Venue:

Considered to be one of the most beautiful cities in Central Europe and even the world, Prague is a city of very rich history, extraordinary architecture, and rustic cobblestoned streets. Filled with tourist attractions, old-school style cafes, and plenty of beer, Prague is the place to go to for those who enjoy culture, serenity, and history.

Dear Researchers, Surgeons, Professionals, etc.:

The International Conference on Plastic, Reconstructive, and Aesthetic Surgery is organized by academics and researchers who are a part of various areas of the Plastic Surgery fields with the technical support of Med2Pharm Conferences.

This event has the objective of creating an international forum for medical practitioners, researchers, and others from all around the world to discuss worldwide results and proposals regarding the issues related to new advancements and developments in the field of Plastic Surgery.

The conference aims to bring together leading medical practitioners, researchers, and others to exchange and share their experiences and research results in all areas of Plastic Surgery. It also provides a premier interdisciplinary forum to present their latest research results, ideas, developments, and applications in all areas of Plastic Surgery. The conference will bring together leading medical practitioners, researchers and scholars in the domain of interest from around the world.

The Conference will also have a space for companies and/or institutions to present their products, services, innovations and research results. If you or your company is interested in participating of this exhibition, please contact the Conference Secretariat.

Finally, on behalf of the Organizing Committee, we would like to invite all the Scientific Community to participate in this project, presenting papers or communications related to any of the proposed topics.

Looking forward to welcoming you in Prague!

Sincerely,

Conference Secretariat

International Conference on Plastic, Reconstructive, and Aesthetic Surgery 2020

Objective:

The objective for this event is to create an international forum for medical practitioners, researchers and others from all around the world to discuss worldwide practices, results, proposals, issues, and other things related to recent developments and practices as well as research in the field of Plastic Surgery.

This event will also include participation of renowned keynote speakers, oral presentations, posters sessions, and technical conferences related to the topics within the field of Plastic Surgery. Additionally, there will also be a very attractive tour of the city.

Opportunities Young Researchers will have:

- Possibility of presenting your certified oral communications.
- Publication of your abstract and/or your extended abstract in the e-book of this conference.
- Possibility of submitting your extended papers to International Congress Journals.

International Plastic Surgery Conference aims to:

- Create a great opportunity to disseminate and publish your work to the rest of the Scientific Community.
- Facilitate sharing and collaboration between world class practitioners and researchers.
- Help students earn credits and also give them an opportunity to learn from experts in the field.

Who Should Attend?

The Conference will assemble individuals from a wide range of experience in the field of Plastic Surgery as well as others who are interested in the subject, including researchers and students. This forum will be a great place for exchanging ideas from one another.
