Invitation

Dear Aspirants...

This World Conference on Disaster Management is organised on June 17 – 18, 2020 at Swissbel Hotel Rainforest, Bali, Indonesia., to inculcate in the minds of thinkers, a sustainable pre - disaster arrangement such that the livelihood of the people and the economy of the nation does not falter after the disaster. The conference is themed in such a way that the guest speakers, the delegates and the attendees can together formulate new strategies and techniques to cope up with post - disaster trauma and make effective pre-disaster arrangements. The major challenges faced at the time of management will be discussed exclusively to mitigate the effect of the cause. The effect of these challenges can be further reduced, if the nations join hands, smudge their national boundaries and deliver help in all possible aspects. Although today, several NGOs and government bodies are involved in rescue operation, all of the effort falters if pre-disaster management is not well-planned. Thus, such a confluence is necessary to for a sustainable future.
