## ABOUT CONFERENCE

3

The global dentistry market is expected to reach US\$ 60 billion by the year 2024 expanding at a compound annual growth rate of 6.8 percent. The dental market evolving rapidly due to growing demand for better oral hygiene and increasing awareness of the importance of oral hygiene in keeping possible ailments at bay. Key role players in dental care market make use of different strategies including new product developments and new devices while keeping up their pace with the rising demand for new technological advancements in the industry.

## ABOUT DENTAL FORUM

With an aim to evaluate technological breakthroughs and methods in dental research and development and to strengthen future research, United Research Forum is organizing the "Dental Health Forum" in University of Manchester, UK during October 26-27, 2020 with the theme "Dentists: A Reason Behind our Vibrating smiles for healthy lifestyle" to strengthen exchange of ideas.

# DENTAL HEALTH FORUM

## WHO ATTENDS

4

This Forum will provide the best platform for research scholars, dental surgeons, clinicians, students, practitioners, industry professionals, policy makers and delegates and administrators from pharmacy and healthcare to share their perspectives and present their ideas and innovations on current research for better healthcare outcomes in Dentistry.

It includes several keynote lectures from informed professionals in the field, plenary talks, discussions, interactive sessions, an exhibition, workshops, oral and poster presentations and social events that promote networking and collaboration opportunities between professionals from different industries and institutions. It offers a wonderful opportunity for to present their research and analysis, tools and procedures aimed at the progress that is being made towards better management and treatment of conditions related to Dental and Oral Health. We hope this meeting will provide a wonderful stage for all the participants to promote better policies and actions that will support the goals of professionals in the field across the world.

We look forward to welcoming you to this event in **University of Manchester, UK.**

### **ABOUT VENUE:**

The University of Manchester is a public research university in Manchester, England, formed in 2004 by the merger of the University of Manchester Institute of Science and Technology and the Victoria University of Manchester. The University of Manchester is a red brick university, a product of the civic university movement of the late 19th century.

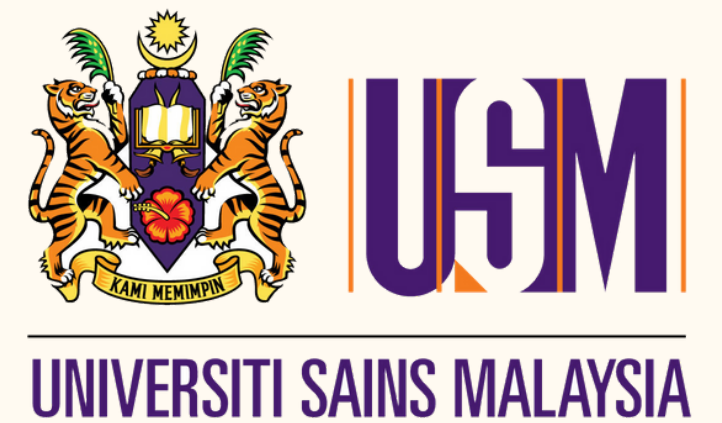

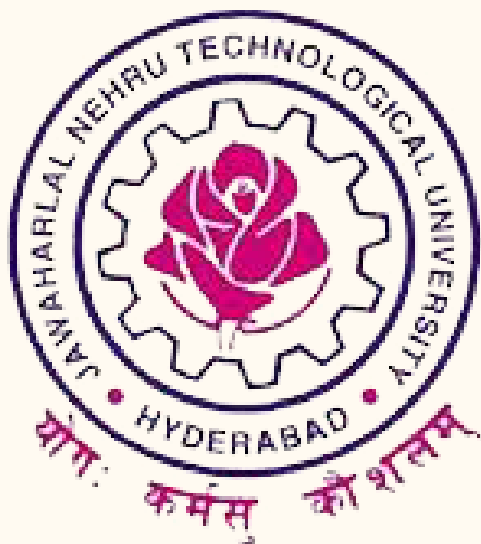

The University of Manchester has 25 Nobel laureates among its past and present students and staff, the fourth-highest number of any single university in the United Kingdom. Four Nobel laureates are currently among its staff – more than any other British university.
