Explore Tokyo

Tokyo is the capital of Japan. With over 13 million people within the city limits alone, Tokyo is the core of the most populated urban area in the world. This huge, wealthy and fascinating metropolis has something for everyone: be it high-tech visions of the future, or nostalgic glimpses of old Japan.

Tokyo is modern and cosmopolitan, yet rich in cultural heritage. Majestic skyscrapers contrast with the venerable Tokyo Station building and nearby Imperial Palace with its moat and inner gardens. A short walk from fashionable Ginza is the historic theater where kabuki is performed.
