

OUR TRACK RECORD

Indu Inferentia Management Consultancy Inc. and IAM Training Services are private consulting entities that offer conferences, as well as public and in-house workshops. In our first year of inception, we have successfully organized The First Philippine Tax Summit, which attracted 528 delegates from a wide cross section of industries. This was followed by the First Labor Relations and Management Summit, which was patronized by 270 participants. The Strategic Selection and Management Summit and The First Philippine Compensation & Benefits Management Congress, had 150 and 260 delegates, respectively. Within the same year, it has conducted the 2nd Philippine Tax Summit, with a total of 230 participants. It is worth noting that The Philippine Tax Summit has reached its 16th run in 2018, owing to the solid patronage of our clients.

Apart from sequels to these congresses, Indu and IAM have organized new conferences, reflecting its growing number of patrons. These are The First Multi-functional Data Privacy Summit, The First Legal Risk and Corporate Governance Summit, and The First HR Compliance Conference, among many others.

Indu Inferentia, IAM Training Services and its affiliate partners have now served thousands of organizations, including the top corporations in the country. This proven track record is borne out of its integrity, passion for excellence, and customer centricity.
