# Phronesis Researchers world.

Online conferences and meetings are an amazing way to share and learn through Networking. The aim of the meeting is to connect experts and upcoming researchers worldwide on this virtual platform and explore the contemporary approaches. Our agenda is to help the audience to gain a better insight into the advancing technology in a great manner in the fields of Chemical Engineering and Catalysis in a time-saving and hassle-free manner. This Virtual Meeting offers a way for everyone to participate in and enjoy the same benefits as like physical conference, without the travel and expense.

# Sessions:

**Chemical Engineering and Catalysis** Heterogeneous Catalysis Homogeneous Catalysis **Environmental Catalysis** Polymer Engineering **Biochemical Engineering and many** more..

# Webinar on Chemical Engineering and Catalysis

Phronesis LLC is delighted to welcome you all to the Webinar on Chemical Engineering and Catalysis scheduled during between October 26-27, 2020

### Why to Attend:

Join us and learn the new insights.... Connect worldwide Experts Learn beyond your field or interest Professional Speakers For Website: https://phronesisonline.com/ichem/ **Cost Effective** For Abstract Submission: https://phronesisonline.com/ichem/abstract-submission.php Wider Reach Connect In Real Time Easy Access and Time Saving Contact us: chemicalengineering@phronesisonline.org **E-Posters** Stay Safe with social distancing

Theme: Exploring Latest Trends in Chemical Engineering and Catalysis

# October 26-27, 2020
