-DIABETESUCG KEYNOTE SPEAKERS-

-VENUE @ ZURICH, SWITZERLAND-

Already 5000 years ago the first settlers made the shores of Lake Zurich, where the waters exit, their place of home. Traces of these settlements can be detected from Bauschänzli to Wollishofen. 57/58 BC the Romans came to Zurich and founded the Turicum customs station, where travelers and goods were dispatched before crossing into the province of Raetia. The ancient name Turicum and evidence that there was a customs station is only because of the grave inscription for Urbicus, son of the local customs superintendent, made in 1747 and found on the Lindenhof. In the 4th century a castle was built on the Lindenhof, which remained until the Early Middle Ages, around which the settlement of Zurich expanded.

Zurich has historical monuments like Grossmünster, Fraumünster, Uetliberg, Bahnhofstrasse, Lake Zurich, Sechseläutenplatz, Lindenhof, Zurich Old Town, & Zurich-West which are vibrant and adds glory of the most magnificent spectacular culture.

“Zurich is introducing itself as a business hub. The city's skyline is being continuously transformed through the emergence of new projects..”
