THE GAISA PARADIGM

The GAISA is being built as we engage.

Global Artificial Intelligence Summit & Awards (GAISA) is an international event on AI, which brings together various government agencies, industries, academia, media, plus global societies and associations as partners. It has been held annually. In 2019 more than 600 people from 17 countries visited, more than 5000 people participated via the web, and 44 renowned speakers attended, making it the largest ever.

The GAISA 2021

Bringing together some of the world's leading decision-makers, technologists, innovators, and investors, the GAISA 2021 offers a unique global platform to explore how AI's transformational potential can be best used to create a better future for all. And what this means for policy and decision makers interested in leveraging that potential.

YOUR ENGAGEMENT IN

STRATEGY

Gather ecosystem-wide market intelligence on the emerging Edge AI space to scope out your next potential partner, acquisition, investor or competitor

TECHNOLOGY
