2021

Future Shape of Brain and Neurology : Accessions, Organizations & Research

Conference Dedicated to Innovate Solution to the Public Health Challenges
Your single Destination to reach Largest Assemblage of participants from
Neurology Community

Opportunity beyond any Comparison to Attend & Network

Experience the Global Ambiance with Researchers with Similar Significance

Make New Associations and Fostering Potential Partnerships

Learning & Knowledge in a Single Package

Worldwide Acknowledgment to your Research Profile

Explore the best in Cutting Edge Research

Learn Beyond your Field of Interest

Professional Development to Elevate your Knowledge and Skills

Brain Disorders 2021

Speakers Representation from 50+ Countries

1 Conference | 2 Days | 8th Conference in Brain and Neurology Series

15 Keynote Talks | 75 Plenary Speakers | 17 Interactive sessions

Symposia | Workshops | Best Poster Award

200 Attendees | 50 Professors | and many more . . .

Greetings!

Welcome to most exciting and fascinating London, UK!

Within this splendid setting, we plan to deliver a conference that will exceed your expectations.

During this year's Conference, we hope that you will seize the opportunity to rekindle ongoing connections and spark new ones with your colleagues from around the globe. It's with great pleasure and great honor to invite you to the "**8th International Conference on Brain Disorders and Therapeutics**" scheduled during **September 15-16, 2021** at **London, UK**.

The Conference will be organized around the theme "**Exploring the destiny of Brain Health**"

Brain Disorders 2021 anticipates more than 500 participants around the globe to experience thought provoking Keynote lectures, Oral & Poster presentations. This year conference will offer ample opportunities for all stakeholders working on Brain, Dementia and Neurology to expose their research work.

Our conference aims to gather the Researchers, principal investigators, experts, neurologists and researchers working on brain from both academia and health care industry, Business Delegates, Scientists and students across the globe to provide an international forum for the dissemination of original research results, new ideas and practical development experiences.

This year's Conference program, coupled with the Business Opportunity Exchange, is an event you can't afford to miss!.

Sincerely

Brain Disorders 2021, Organizing Committee

WELCOME MESSAGE

We are back again! Conference that dedicated to Innovate Solution to the Public Health Challenges, one conference which future the shape of Brain Disorders and Dementia. Our Conference will organize and allow to access the global researchers around the world in a single platform. Brain Disorders 2021 will provide a great opportunity beyond any comparison to attend and network with Brain and Neurology Community.

Join us at our 2021 edition of Brain and Neurological Disorders to Experience the Global Ambiance with the Researchers who work with similar significance of research. Brain Disorders 2021 will help you to get answers to all your queries related to your research work and also it creates an great opportunity to make new associations and also helps to foster potential partnerships. Brain Disorders 2021 will be an great platform for you to create long lasting relationship with the fellow researchers from Neurology Community.

Get worldwide acknowledgment to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research work. Where this was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website majority amount of traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Brain Disorders 2021 website is attracting 56000+ Neurologists, Neurosurgeons and Psychiatrists, Brain Researchers, Neuro Oncologists, Pharmacists, Research scientists, Neurology Organizations and societies, Pharmaceutical companies, Neuro and CNS drug Industries, Neuroscience associations, Professors and Students..

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Brain Disorders 2021 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Wednesday, September 15

Ceremony

Purpose

With members from around the world focused on learning about Brain Disorders & Alzheimer's and Neurology, this is your single best opportunity to reach the largest assemblage of participants from the scientific community.

Conduct demonstrations, distribute information, meet with eminent personalities, and make a splash with latest research innovations at this outstanding event.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Brain and Neurology to present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address brain diseases and neurological problems and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Brain Disorders and Neuroscience
- Discuss and apply recent research findings related to Brain Disorders and Neuroscience
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

Who should attend?

Neurologists, Neurosurgeons, Psychiatrists, Brain researchers, Neuro Oncologists, Pharmacists, Research scientists, Neurology Organizations and societies, Business delegates, CEO's and R&D Heads from Industries, Directors, Industrial Leaders, Pharmaceutical companies, Neuro and CNS drug Industries, Neuroscience associations & foundations, Professors and Students from Academia in the study of Neurology and Neuroscience and researchers who utilize novel techniques and knowledge in diagnosing and treating brain and neuronal disorders..

CME & CPD

Brain Disorders 2021 has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Committee

The live format of this educational activity will be accredited with CME and CPD Credits.

Diverse Action-Oriented Programming & Networking

EXPERIENCE: Inspiring change around the country and world, growing a revolution from the heart of Brain and Neuro research.

EXPLORE the forefront of breakthrough ideas and models in electrifying morning keynote talks, featuring luminaries and “the greatest people you’ve never heard of.”

PARTICIPATE in afternoon panels and workshops/symposiums on diverse topics of Dementia, Neurological and Brain disorders, Alzheimer’s and more!

NETWORK with a community of leadership – dynamic change makers from around the country and world, or from your region, to develop important professional and personal relationships.

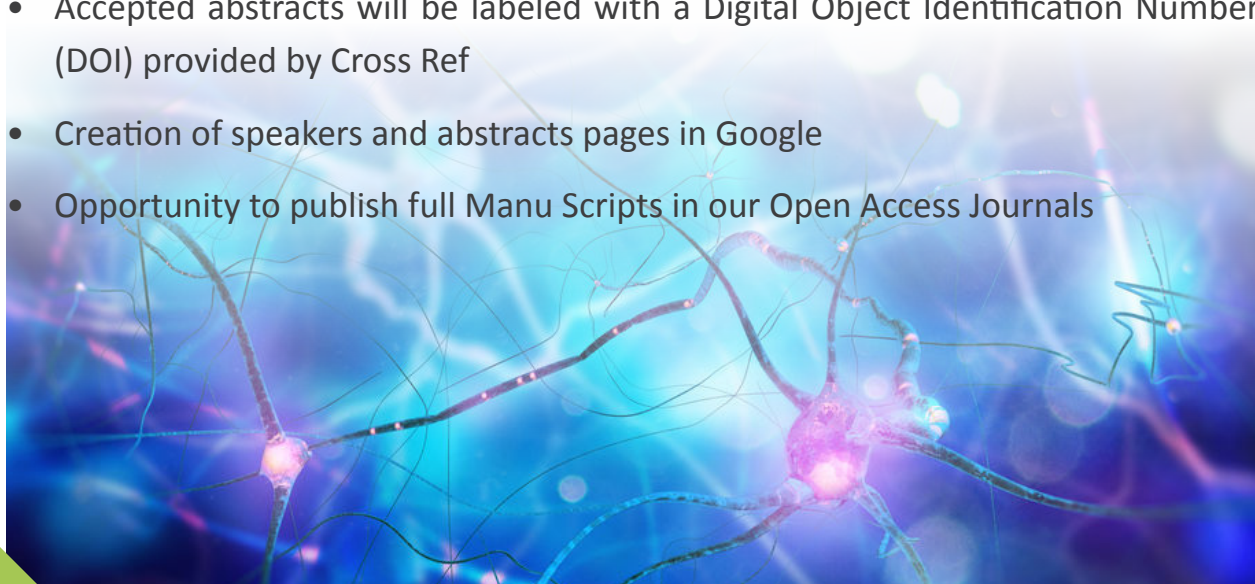

SHARE your insights and learning at the conference in participatory and experiential workshops.

DISCOVER powerful opportunities and strategies for creating and engaging with progressive change in your work, life and community.

CELEBRATE how great a difference one person can make, and how building community amplifies that change.

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

Scientific Sessions

- Brain and Brain Disorders
- Diagnosis of Brain Disorders
- Neurobiology and Pathophysiology
- Neuroimmunology of Brain
- Neuropharmacology and Neurochemistry
- Neurodegenerative Disorders and Geriatrics
- Neurogenetics
- Dementia
- Structural and Functional Brain
- Neuroengineering and Computational Brain
- Neuro-oncology and Brain Tumors
- Neurosurgery
- Brain Nursing
- Pediatric Neurology
- Headaches and Migraine
- Neurorehabilitation
- Therapeutic Strategies
- Technological Advances in Diagnosis and Treatment
- Animal Models in Brain Research
- Biofeedback and Neurofeedback
- Case Reports and Clinical Trials

Brain Disorders 2021 Outlook

Explore the best in Cutting edge Research

Change to learn beyond your field of Interest

Keynote sessions by worlds most eminent and distinguished researchers

Conference Participation Inspires, Rejuvenate and Energize participants

Brain Disorders 2021 an unique platform to increase your reputation within the Neurology Sector

Learning and Knowledge in a single package

Speaker's representation from 50+ Countries

1 Conference | 2 days and 8th conference in a row

Brain Disease Market: Investment Research Report 2025

Brain Diseases a piece of focal sensory system infections, is where the mind structure or capacities adjust. The mind maladies incorporate conditions or inabilities that influence the cerebrum. For the most part brain issue happen because of horrible damage, hereditary or different maladies, while few mind ailments happen because of ecological components. The major concerned mind sickness are caused because of cerebrum weakening which may prompt neurodegenerative diseases, for example, Alzheimer's, Huntington's diseases, and others.

The psychological disorders or dysfunctional behavior event is additionally identified with the mind illnesses, which incorporate wretchedness, uneasiness, bipolar disorders, and others. The etiology of brain diseases isn't particular. It can strike anybody and the hazard elements of mind illnesses contrast in understanding to the distinctive kinds of cerebrum infections.

The sign and manifestations likewise contrast for each cerebrum ailments. The absolute most normal manifestations incorporate migraine, memory misfortune, tremors, expanded reflexes, slurred discourse, loss of motion, and failure to think among others. In addition, the treatment of brain infections run from surgery to recovery to pharmaceuticals; contingent on the mind illness the patient is influenced by. The cerebrum infections are dynamic which may influence the day by day life of patients and consequently ought to be quickly treated upon their conclusion or discovery.

The occurrence and commonness of brain diseases and clutters increment with age. The developing child blasting populace is the main consideration driving the mind ailment showcase, universally. Rising commonness of mind sicknesses is relied upon to help the development of the market. As indicated by the Alzheimer's Association, Alzheimer's illness is the sixth driving reason for death in U.S. Likewise, the affiliation additionally evaluated that by the pervasiveness of Alzheimer is expected to increment from in excess of 5 million of every 2016 to 15 million out of 2050.

Due absence of successful treatment for some cerebrum infections, for example, mind disease, they are a gigantic interest for therapeutic treatment. In view of this reason, key market players are seriously concentrating on R&D to build up a sheltered and viable treatment for cerebrum maladies. Every one of these components go about as driver for blossoming development of the cerebrum infection showcase. In any case, unfavorable impacts related with the pharmaceuticals of mind maladies is expected to prevent the market development.

The progression in the prescription and therapeutic innovation, and increment in the human services consumption among the populace is expected to build the request of cerebrum maladies advertise. The expanding attention to cerebrum infections and their medicines in creating nations is foreseen to build the market development. Besides, the activities taken by the government for enhancing human services framework and lessening costs of mind ailment treatment is relied upon to fuel the cerebrum malady showcase development amid the estimated time frame.

North America holds a noteworthy piece of the overall industry of the cerebrum sickness advertise attributable to the settled human services foundation and rising interest for mind illness treatment among the populace is foreseen to impel the development of the cerebrum malady showcase. Moreover, Asia Pacific locale is foreseen to demonstrate extensive development rate inferable from the increment in government interest in social insurance part and expansive geriatric patient pool in the area.

A portion of the key players display in worldwide cerebrum infection showcase are Pfizer Inc., Eli Lilly, F. Hoffmann La Roche AG, GE Healthcare, Janssen Pharmaceuticals, Abbvie Inc., AC Immune SA, Allergan PLC, Merck and Co, Novartis AG, AstraZeneca plc, and others. The organizations are concentrating on innovative work of new medications to build their piece of the overall industry in the mind ailment showcase.

London is the capital and largest city of the United Kingdom and of England. The city stands on the River Thames in the south-east of England, at the head of its 50-mile (80 km) estuary leading to the North Sea. London has been a major settlement for two millennia, and was originally called Londinium, which was founded by the Romans. The City of London, London's ancient core and financial centre—an area of just 1.12 square miles (2.9 km²) and colloquially known as the Square Mile—retains boundaries that closely follow its medieval limits. The adjacent City of Westminster has for centuries been the location of much of the national government. Thirty-one additional boroughs north and south of the river also comprise modern London. The London region is governed by the mayor of London and the London Assembly.

London is one of the world's most important global cities. It exerts a considerable impact upon the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is one of the largest financial centres in the world and in 2019, London had the second highest number of ultra high-net-worth individuals in Europe, after Paris. And in 2020, London had the second-highest number of billionaires of any city in Europe, after Moscow. London's universities form the largest concentration of higher education institutes in Europe, and London is home to highly ranked institutions such as Imperial College London in natural and applied sciences, the London School of Economics in social sciences, and the comprehensive University College London. In 2012, London became the first city to have hosted three modern Summer Olympic Games.

Accompany Partners' Policy:

We respectfully remind you that partners accompanying delegates/speakers are not eligible to attend conference sessions and do not qualify for refreshments and lunches during the day unless they have registered.

Any partner wishing to attend events not previously selected and paid for in his or her registration may do so at the Conference Registration desk.

We would be pleased to accommodate any requests where possible.

Registration and Accommodation

Policy:

Registration and accommodation changes will not be accepted unless made in writing.

Changes made within 14 days of the event may incur costs due to specific hotel and venue policies

Cancellation Policy:

Registration cancellations will not be accepted unless made in writing.

If the registrant is unable to attend, and is not in a position to transfer his/her participation to another person or event, then the following refund arrangements apply:

Before 90 days of the conference: 50% refund

Within 90 days of the conference: No refund.

No registration refunds will be processed after this date, however, substitute delegates are welcome.
