Organizing Committee

WELCOME MESSAGE

We are back again! Conference that dedicated to Innovate Solution to the Public Health Challenges, one conference which leads to the congenital heart defects, coronary artery disease, heart failure, valvular heart disease and many more in world heart congress. Our Conference will organize and allow to access the global researchers around the world in a single platform. Heart Congress 2021 will provide a great opportunity beyond any comparison to attend and network with World Cardiologists Community.

Join us at our 2021 edition of World Heart Congress to Experience the Global Ambiance with the Researchers who work with similar significance of research. Heart Congress 2021 will help you to get answers to all your queries related to your research work and also it creates an great opportunity to make new associations and also helps to foster potential partnerships. Heart Congress 2021 will be an great platform for you to create long lasting relationship with the fellow researchers from Cardiology Community.

Get worldwide acknowledgement to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research work. Where this was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website majority amount of traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Heart Congress 2021 website is attracting 56000+ Cardiologists, Cardiac Surgeons and Psychiatrists, Cardiac Researcher, Cardio Oncologists, Pharmacists, Research scientists, Cardiology Organizations and Society, Professors and Students.

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Purpose

With members from around the world focused on learning about Cardiology & Cardiac related issues, this is your single best opportunity to reach the largest assemblage of participants from the scientific community.

Conduct demonstrations, distribute information, meet with eminent personalities, and make a splash with latest research innovations at this outstanding event.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about heart related disease to present the most recent research findings and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address brain diseases and neurological problems and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Cardiology and Heart related Disease
- Discuss and apply recent research findings related to Cardiological Medical instruments and Recent devices.
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

Who should attend?

Cardiologists, Cardiacsurgeons, Cardiacresearcher, Cardiovascular Anesthesia specialists, Pharmacists, Research scientists, Cardiology Organizations and societies, Business delegates, CEO's and R&D Heads from Industries, Directors, Industrial Leaders, Pharmaceutical companies, Neuroscience associations & foundations, Professors and Students from Academia in the study of cardiology and researchers who utilize novel techniques and knowledge in diagnosing and treating brain and neuronal disorders.

Diverse Action-Oriented Programming & Networking

EXPERIENCE: Inspiring change around the country and world, growing a revolution from the heart of Cardio and Cardiovascular research.

EXPLORE the forefront of breakthrough ideas and models in electrifying morning keynote talks, featuring luminaries and “the greatest people you’ve never heard of.”

PARTICIPATE in afternoon panels and workshops/symposiums on diverse topics of Cardiology, Heart Failure, Cardiac Imaging, Women and Heart Disease and more!

NETWORK with a community of leadership – dynamic change makers from around the country and world, or from your region, to develop important professional and personal relationships.

SHARE your insights and learning at the conference in participatory and experiential workshops.

DISCOVER powerful opportunities and strategies for creating and engaging with progressive change in your work, life and community.

CELEBRATE how great a difference one person can make, and how building community amplifies that change.
