

Live Webinar on

The 2016 OCR Phase 2 Audit Program

Date: Tuesday, November 8, 2016

Time: 10:00 AM PDT | 01:00 PM EDT

[Register Now](#)

Duration: 60 Minutes

Location: **Online**

Instructor: Kelly McLendon

Overview:

This course addresses the newly released OCR (Office for Civil Rights) Phase 2 Audit Program. The rules and protocols have been released and the audit process has started. All covered entities (CE) and business associates (BA), literally anyone that accesses, uses or discloses PHI (Protected Health Information) needs to be aware of this new audit program. Potentially OCR can review up to 180 different areas of the HIPAA privacy, security and breach rules. This presentation reviews the detailed processes OCR will use for the audits along with examples of the protocols and how to be prepared for an OCR audit.

It's important to be prepared because even if not selected for an OCR audit, any privacy or security complaint could trigger the same types of questions and requests for documentation during the investigation.

Areas covered in the session:

- 1 History of the OCR audit programs
- 1 The processes and rules surrounding the 2016 OCR audit program
- 1 Examples of privacy, security and breach audit protocols
- 1 Steps to take in preparation for an OCR audit

Who Will Benefit:

- 1 Privacy Officers
- 1 Security Officers
- 1 Compliance Officers
- 1 HIM Managers
- 1 Practice Managers
- 1 CIO
- 1 General Counsel
- 1 Physicians

About Speaker

Kelly McLendon

Managing Director, CompliancePro Solutions
Kelly McLendon RHIA, CHPS (credentialed in medical records management and healthcare privacy and security) has been involved in HIM since the beginning and his 36-year career spans nearly the entire realm of HIM.
