Create Hotmail Account

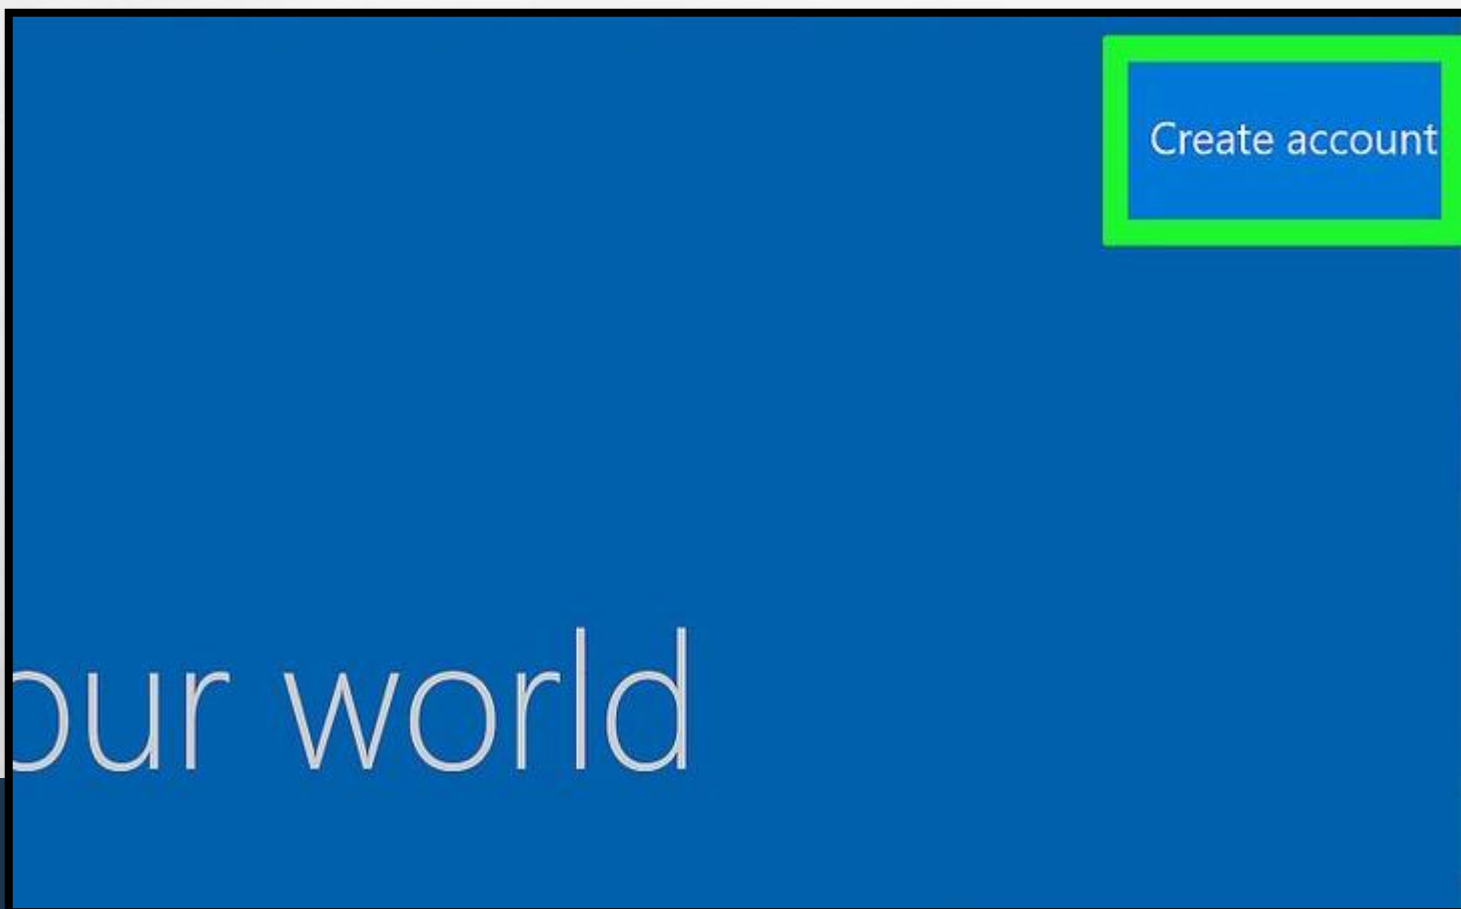

1

Open the Microsoft Outlook website. Go to <https://www.outlook.com/> in your web browser.

2 Click [Create account](#). It's a link in the top-right side of the page.

3 **Create your email address.** Type your preferred email name into the "New email" text field in the middle of the page.

- You can select your email address' domain (either **@outlook.com** or **@hotmail.com**) by clicking the downward-facing arrow on the right side of the "New email" field and then clicking the domain that you want to use in the drop-down menu.

Microsoft account opens a world of benefits.

A text input field containing the email address "wikiphow.samples@hotmail.com". The field is highlighted with a bright green border. The text is split into two parts: "wikiphow.samples" and "@hotmail.com", with a small downward-pointing arrow on the right side of the field.A text input field with the placeholder text "Create password".

Send me promotional emails from Microsoft

A blue rectangular button with the word "Next" centered in white text.

4

Enter a password. Type the password that you want to use into the "Create password" text field that's below the "New email" field.

- Make sure that your password includes a combination of letters and numbers.
